CS 250: Systems Analysis and Design

Overview of the systems development life cycle. Emphasis on current system documentation, through the use of both classical and structured tools/techniques for describing process flows, data flows, data structures, file design, input and output designs and program specifications. Discussion of the informative gathering and reporting activities and of the transition from analysis to design.

Hours: 3
Prerequisites:
CS 110, CS 120, MA 165 or above.
Program: Computer Science
Semester Offered:
Fall
