

Accounting Major

Mission

The mission of the accounting program is to use personal instruction to develop accountants who have the skills to compete in a fast-changing professional environment.

Learning Outcomes

- Demonstrate a fundamental understanding of generally accepted accounting principles as related to the construction and analysis of financial statements.
- Apply auditing and professional standards established by the American Institute of Certified Public Accountants (AICPA) and the Public Company Accounting Oversight Board (PCAOB).
- Utilize managerial accounting methods to make business decisions.
- Interpret and apply the Internal Revenue tax code pertinent to individuals and businesses.
- Explain and apply the key concepts of the business core of accounting, economics, marketing, business law and quantitative analysis.
